Custom Products Portfolio

Valhalla Country Club Pulls
What is Identity Hardware™?
Trimco’s Identity Hardware™ is a complete portfolio of products that add to the identity of the building they are installed in. From products with company branding to completely custom cast pulls, Trimco can deliver the perfect solution for any facility.
**T-ETCH**

Trimco’s T-Etch is a special acid etching process that produces a high definition graphic with slight texturing. Logo’s and images can be etched into protection plates, push plates, pull plates and signage to showcase your brand. These products are manufactured in the United States from stainless steel, bronze, brass, aluminum and copper. Color infill is also available to highlight and accentuate the design.

**FEATURES**

- Acid etching process, with optional color infill.
- Manufactured in the United States.
- Heavy duty .050” stainless steel, brass or bronze material.
- Sizes up to 4’ x 8’.
- Pencil beveled on all four sides standard.
- Custom cutouts, sizes and shapes available.
- Easily cleaned with mild soap and water.
**T-PRINT**

Trimco’s T-Print is a unique anodized printing process that produces high definition graphics within a hardened aluminum material. Logo’s or images can be printed onto a standard or custom door pull(s) to showcase your brand. Multiple product options including different pull styles, shapes and colors.

**FEATURES**

- Unique anodized printing process enables brand logo’s or images to be highlighted on door pulls.
- Hard anodized material is durable and long lasting.
- UV resistant inks are utilized to prevent fading.
- Manufactured in the United States.
- Available in three different price points to fit any budget.
- Custom cutouts, sizes and shapes available.
- Easily cleaned with mild soap and water.
