Ron McCoy

Princeton educated and award winning architect Ron McCoy of Los Angeles, working closely with Trimco engineers, has met the challenging demand for creative and affordable hardware.

With the fOCAL Series, McCoy blends fundamental forms, functions, and materials into inspired shapes and accents that will add distinction to any project.

Modern yet timeless, the McCoy conceptions refine each piece of hardware to the most elegant solution. Subtle visual appeal combines with strength and grace evident in a touch of the hand, making the fOCAL fixtures unique and exquisite.

fOCAL

Quality of form. Quality of proportion. Quality of detail.

Trimco has designed all of these qualities into fOCAL, a full line of affordable architectural door hardware. Since good hardware is essential and cost control important, the fOCAL Series is manufactured to be the very best value in the industry.

In a variety of fashionings and in all standard finishes. fOCAL solves the problem of having to choose between generic and extravagantly priced hardware.

You now have an outstanding new range of choices, all made in the U.S.A.
