PG8125VV-1

ABOUT THE PG8125 SERIES

Trimco's PG8125 Series Panic Guards are the ultimate in protection for exit device end caps. Designed to protect exit devices from damage and destruction, the End Cap Guards are manufactured from 18GA stainless steel and mate with Corbin Russwin, Sargent, Yale, Monarch, Von Duprin, Adams-Rite and other manufacturers. The PG8125 Series End Cap Guards are manufactured by master craftsman for lasting durability.

FEATURES

- Manufactured from 18GA stainless steel for long lasting protection.
- Mates with most manufacturers exit devices.
- Protects vulnerable exit device end caps from carts, gurneys, and other potential damage.
- Stainless steel mounting screws are countersunk to enhance the unit and provide a flat mounting surface.

APPLICATIONS

- Commercial & Industrial Buildings
- Manufacturing Facilities
- Hospitals & Health Care Facilities
- Government & Military Facilities
- Hospitality
