

UL Labeled Protection Plates & Edge Guards

12/14/14

Kick, Mop & Armor Plates

Trimco is pleased to offer UL listed kick, mop, armor plates, and edge guards for rated doors. The maximum size of plates can be no more than 48 inches in height and no more than 46 inches in width. Plates will be secured with #6 truss head, phillips head, sheet metal screws with standard spacing for mounting (approximately 6-inches). Plates may be Stainless Steel, Brass, Bronze or Aluminum. The approved plates are intended for use on steel fire doors and frames rated up to and including 3 hours.

Edge Guards

Trimco's Edge Guards are also U.L. rated at 1-1/2" hours for wood-composite type fire doors and at 3 hours for steel fire doors. Edge guards; will be applied with #5 flat head, sheet metal screws with standard spacing for mounting.

Plates and edge guards that require "UL" label must be specified on customer's purchase order at the time of ordering. There is an additional cost for ordering plates and edge guards with a "UL" label.
