LOCKING & LATCHING

NEW: 5022A

5022

NEW 5022A – Unit Lock Adapter with Astragal

ABOUT THE 5022 SERIES

April 2015

The 5022 Unit Lock Adapter is a quick and easy retro-fit installation on any door and most manufacturers' unit locks. The adapter installs in minutes in place of an the old unit lock. A replacement cylindrical lock installs onto the adapter. **NEW** – Now offered with an astragal for exterior doors (5022A) to resist attacks against the latch bolt and strike. The 5022 adapter is non-handed, and is manufactured in stainless steel with other base materials available.

FEATURES

- Non-handed.
- Heavy duty stainless steel construction.
- Prepped to fit most cylindrical locks.
- Patent pending.
- Now available with or without an astragal.

APPLICATIONS

- Offices
- Hospitality
- Multi-Family & Mixed Use
- Commercial & Industrial Buildings
- Government & Military Facilities
