

AP311 Pull

AP314 Pull

AP323
Aluminum Adjustable Pull

ABOUT THE AP300 SERIES

Trimco's AP300 Series Pulls (formerly 1185 Series) are uniquely designed to make the world healthier, while being durable, flexible, and highly customizable. The AP320 Family are Aluminum Offset Adjustable Pulls with Square and Radius End Options, and no Endcaps.

FEATURES

- Available with Healthy Hardware® Copper Nickel alloy touch surfaces.
- Healthy Hardware (710) has appearance similar to stainless steel.
- Adjustable and configurable standoffs are versatile for use across many different center-to-center configurations.
- Configurable and customizable end caps are available in multiple sizes and finishes.
- 1-1/2" clearance conforms to ADA requirements for accessibility.

APPLICATIONS

- Retail & Strip Malls
- Hospitality
- Commercial & Industrial
- Multifamily & Mixed-Use
- Government & Military Facilities

Example										
AP316JR-76L-4-PJB.630			- 76 L	- 4		- P		J	B	. 630
AP316		R								

Notes

- * For J mounting option, specify Riv-Nut for metal doors or bushings for wood doors if required.
- ** Glass Door Mounting options for 3/8" & 1/2" door thicknesses require a W-Mount hardware kit.
- Mid post is recommended for OA's at or greater than 72".
- Standard CTC is OA less 6".
- Can be ordered with standoffs installed (S) or loose (L).
