ANTI-VANDAL PULLS FOR VON DUPRIN 98/99 SERIES

A standard in the industry, Trimco 1090 Series Anti-Vandal Pulls are engineered for the most demanding applications. Made from 1/8" type 316 stainless steel, bronze or brass these pulls are the ideal choice for protecting doors at schools, parks, public buildings and commercial buildings. Trimco's 1090 Series pulls do not have exposed handles or fasteners that can be tampered with, greatly reduce the potential for trim damage and are available to mate different locksets and exit devices for both in swing and out swing doors.

1096 w/ Astragal &
Cylinder Cutout
