ABOUT TRIMCO'S 3900 DUBL-BOLT

Trimco's 3900 DUBL-BOLT is installed on the inactive leaf of a paired opening and operates a pair of flush bolts at the top and bottom of doors with one motion. The 3900 DUBL-BOLT is available for wood or hollow metal doors, with multiple strike options to pair with cylindrical and mortise locks. When ordering specify the type of door, strike, and lock type. Standard with 626 Satin Chrome Plated Finish.

FEATURES

- 2-point latching flush bolt
- For wood doors & hollow metal doors
- Latches top and bottom with one lever
- Simple and easy to operate
- Standard for 1-3/4" thick door
- Americans with Disabilities Act Compliant

APPLICATIONS

- Hospitality
- Multifamily & Mixed-Use
- Offices
- Government & Military
