ABOUT THE PG8000 SERIES PANIC GUARDS

Trimco's PG8000 Series Panic/Latch Guards prevent damage to the lower latch of surface vertical rod panic device from work carts, fork lifts and pallet jacks, as well as shield the foot area of wheel chair users from the lower latch protrusion. The simple, sleek non-handed design installs over the lower latch bolt and easily installs with standard tools. The PG Series are UL Listed and manufactured in the USA by master craftsman for lasting durability.
